NOTICE OF ALLOWABILITY

Status of the Claims

This action is in response to papers filed 23 September 2004 in which claims 1-14, 17-22 and 24 were amended and claim 16 was canceled. All of the amendments have been thoroughly reviewed and entered. The previous rejections in the Office Action dated 24 May 2004 are withdrawn in view of the amendments. The amendments place the claims in condition for allowance.

Claims 1-14, 17-43 and 60-61 are in condition for allowance.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims are drawn to an electrically conducting carbon nanotube array. The array comprising at least one pair of nanotubes attached at one end to a substrate, metallic material attached to the nanotubes and an electrically conductive bio-compound attached to the metallic material providing an electrical connection between the pair of nanotubes. While the cited prior art teaches bio-compounds attached to carbon nanotubes and teaches bio-molecules forming an electrical bridge between electrodes, the prior art does not teach or suggest a pair of end-immobilized carbon nanotubes having an electrically conductive biomolecule bridge therebetween.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-14, 17-43 and 60-61 are in condition for allowance.
